Recovery Of 85 Bodies In Tahoe Crash Begins

ers began the grim task today of recovering and identifying 85 Lake Tahoe plane crash victims as this tiny western Nevada town opened its doors and kitchens to relatives of the

55th Year, No. 307

The 81 passengers and four crew members died Sunday in the crash of a Paradise Airlines Constellation against a lofty, snow-covered peak on a flight scheduled from San Jose, Calif. to the gambling and winter sports center on the south shore of Lake Tahoe.

Bulldozer Clears Path

The path for recovery operations was cleared by a bulldozer and crew which followed an old logging road, then pushed through rocks and snow to the

Relatives and friends of the victims thronged into Minden, a Basque-German town of 550 residents located six miles east of the crash site and seven miles south of Carson City, the state

The fire station became an information center; the Carson Valley Improvement Club became a morgue and Douglas County courthouse became headquarters for recovery

While the bodies were carried out, Federal Aviation Agency and Civil Aeronautics Board investigators were to examine the crash scene in an attempt to learn why the plane crashed. ..

The victims, all Californians and mostly from the Salinas and San Jose areas, were headed for a day at Nevada gambling casinos when the plane was caught in a blinding snowstorm.

Air and ground searchers. hampered Sunday by the snowstorm, did not find the plane until 7:30 a.m. Monday-when it was spotted on a ridge near the south end and several miles east of the lake.

Authorities speculated that at the last minute Norris changed his flight plan and headed for Reno or Carson City.

The biggest piece of wreckage was the tail section. Most of the other pieces were so small they were hard to distinguish from tree stumps and rocks.

Helicopter pilot Leroy W. Marx, who spotted the wreckage said: "If he (Norris) had been 25 to 30 feet higher he would have cleared the peak."

New idea in life insurance! Nationwide's "Adjustable Plan" lets one policy do the work of four

You buy one policy, then add or subtract other kinds of protection as often as your needs change. It is the most flexible plan ever.

Until today, if you had a life insurance policy on yourself, you had to buy a new policy to insure your wife. Another for your mortgage. And so on. Complicated. And you paid extra to have the new policies written.

Today, Nationwide's "Adjustable Life Plan" ends all this. It lets you customtailor a single policy to fit your needs, and change it as your needs change. Simple. And it gets rid of those extra costs. Here's how it works:

TET'S SAY you already have a policy on yourself, and you now want to insure your wife and new baby.

Until now, you had to buy a brand-new policy to insure them both.

There were drawbacks to this. You had to pay extra to cover the paper work involved in writing a new policy. You also had to take more insurance on yourself.

Eliminates paying extra costs

Now with Nationwide's "Adjustable Life Plan," you can insure your wife and child without buying a brand-new policy and without buying more insurance on yourself.

You select Nationwide's "Wife and Children Benefit" and add it to your basic Nationwide policy. It's as simple as that.

Add or subtract 9 "Benefits"

You can do the same thing with four different "Benefits" that used to require buying separate policies—the top four described at the left. Besides that, you can add the five described below at the left. Nine "Benefits" in all.

With these nine "Benefits," you can customtailor a single policy to fit your needs. Add the "Benefits" as you need them. Subtract them as your needs change.

If you'd like to learn more about this amazingly flexible plan, call your local Nationwide representative today. He can lend you a hand with all your insurance needs-life, health, home and auto. He's listed in the Yellow Pages.

IMPORTANT NOTICE FOR NATIONWIDE POLICYHOLDERS

If you now own a basic Nationwide Life Insurance policy (Whole Life or Endowment), and you bought it since 1948, you can go back and revise it with any of these nine "Benefits."

Delta Charity Triumph

The revival of united fund giving for charities in Delta County in 1963 has been successful. Delta United Charities, our new agency to federate giving to 9 important community services, reports that it has obtained cash and pledges totaling \$43,200 in its campaign for \$50,000 and that it will be able to meet the basic needs of its member agencies.

They are the Red Cross Blood Bank, the Child Guidance Clinic, Boy Scouts, Girl Scouts, Camp Fire Girls, Retarded Childrens School, Salvation Army, Bay

Cliff Health Camp and YMCA.

Their Delta County operations will be financed by Delta United Charities in 1964 because of the generosity of the community. Charity is described as "Christian love." Way down the list of things that the word expresses is the explanation "giving to the needy." Essentially, charity is giving our love, or prizing our faith above our possessions. We usually express it by giving, but some of the finest expressions of charity are attitudes of mind -- generosity, forgiveness, tolerance.

The organization of adequate support for volunteer service agencies like the members of DUC is a big job. John Pearson undertook it for the DUC directors last fall and they report themselves well pleased with the result. There were some soft spots which they will try to remedy in next fall's campaign, but they said that all who gave can have the good feeling that the burden is shared broadly.

There were the usual minority of turn-downs on the campaign cards, like the man who asked the unpaid solicitor to come back and come back and who finally went free and then complained that he was ready to give but they never came for the money. There were only a few groups which did not participate.

One of the disappointments of the campaign to the directors was the decision of a union local not to participate. This group is impeccably patriotic and itself organized a charity fund for its local with payroll checkoff years before united giving was proposed here. It is daffy to criticize such people. They were pioneers in volunteer community support. Kingsford also had to wai until the final week before gaining a co-championship with Niagara in the Menomine Range Conference. The Flivvers, posting their first winning record in many years, made the longest climb up a league ladder in the Peninsula to reach the throne. They finished sixth with a 4-8 mark last winter.

As was the case last year Nahma's championship was by a half-game margin and came after a year-long Central U.P. League race with Trenary and Eben. The Arrows lost one game to each of those schools and a third to Rapid River.

New champions in the prep circuits included Carney of the Big Eight, Negaunee St. Paul of the Mid-Peninsula, Baraga of the Copper Country, Sault Ste. Marie of the Great Lakes, Wakefield of the Michigan-Wisconsin and Pickford of the Eastern U.P.

Gladstone has been a perennial contender for district honors and its long-time record has been an amazing evidence of its courage, its coaching and its court finesse. We strongly support Gladstone. We look forward, with the boys, to their opening test in the tournaments and, win or lose, we salute them for what they have been, and what they mean now to the community. Our congratulations.

Victory doesn't come easy and it takes strenuous practice to compete with top competition. However, winning is not the only goal, it's sportsmanship and true school spirit that count. We know that the Garden Jets will be determined to meet the competition on even terms. We wish them success as they enter tournament action, knowing they'll do their best.

The Tigers could very well upset the applecart in the Class D Tournament, because they have developed rapidly in recent weeks, and are apparently ready to jell into a winning five. Coach Gordy LeDuc has his team primed for tourney action, and looking at their season's record, it would surprise no one to see them come out on top. An extremely colorful and aggressive ball club, the Crusaders must entertain the favorites' role in the Class B Division.

The squad has a balance of height, speed, and dexterity that has moved them to an excellent 12-4 won-lost record over the season, and we're sure they will continue their winning ways throughout the U. P. Tourney. Our best wishes go out to the team, and we'll be rooting in their corner for another U. P. title.

The Eskymos carry an enviable record of two Upper Peninsula Class A championships in the three years that they have competed in this new division . . . and stand an excellent chance of adding their third crown this year. Carrying an outstanding 11 won, 5 lost record into the tournament makes them a real threat in the tourney. We're very proud of their accomplishments and their sportsmanship, and wish them the best of luck.

Many words have been spoken and written about the recent heavyweight championship fight in which Sonny Liston surrendered his crown to Cassius Clay while seated on his stool between the sixth and seventh rounds . . . Among the best comments we've read from boxing writers covering the event: * *

"I got a little wet at ringside. From the splash, you know, when Liston went into the tank." . . . And another author stated his story: "Please excuse me if the keys slip a little but I am trying to type with one hand while holding my nose with the other."

CHILD IS GROWING UP—The amount of revenue the government collects in income taxes is growing steadily. In spite of the tax cut, today's income tax is a far cry from what the founders of the country or even the original advocates of an income tax had in mind. Today the government relies on income taxes for more than 80 per cent of its revenue. Since World War II, inflation has almost doubled the cost of living, but federal income tax collections from individuals, see graph, have almost tripled.
